

Mo 28 March 2022 23:26 from Anatoly Zagorodny

Dear Michael,

At this difficult time for Ukraine and the entire Ukrainian people we are deeply touched by your strong support and condemnation of the Russian Federation's aggression against Ukraine.

The National Academy of Sciences of Ukraine is very grateful to you and the International Physics of Nonideal Plasmas program committee for such support and solidarity. It is extremely important for us to know that the war against Ukraine started by Russia finds an adequate assessment of the world's scientific community. The civilized world must stop the aggressor. Your support strengthens our faith in victory.

We believe and hope that peace will soon come to Ukraine.

Together we are stronger.

With best regards

Anatoly

To Prof. Anatoly G. Zagorodny,

President of the National Academy of Sciences of Ukraine,

Dear Anatoly,

I write you in the name of the program committee members of the international Physics of Nonideal Plasmas (PNP) conference series. We are all shocked by the brutal Russian invasion into Ukraine. Please, receive our full solidarity. We are trying to support all initiatives that may lead to an end of the war as soon as possible. If there is anything we can do to help Ukrainian plasma physicists in this situation, please let me know.

With all my best wishes,

Michael

Chairman of the PNP program committee
